

Beyond Terry Towels, a brand synonymous with quality and innovation has embraced eco-friendliness by introducing Bamboo Towels crafted from bamboo fiber yarn. These towels are the result of extensive research, with Mr. Govind Zanwar, a pioneer in the field, spearheading the effort to create a sustainable product that stands out in the market.

Govind Zanwar is also one of the directors in a cluster-based common process house " Threads & Colors Textile Confederation Solapur" with the latest art of technology, machines in yarn dyeing (package dyeing), fabric dyeing (soft flow dyeing), continuous tumbler, stenter, soft winding, final winding, cheese winding, TFO (Two for one), automatic stitching machine, full set up a testing lab, direct warping, fully automatic sizing machine, and effluent water treatment plant.

Beyond Terry Towels is a company with vibrant people. It started manufacturing towels since 2015 (In powerlooms since 1970) and entered in ever interesting world of International business as well.

Our business partners are mainly importers of household textiles, buying agencies, home textile manufacturers, with whom we are strengthening business association since our entrance in exports.

We firmly believe in maintaining long term business association with our valued customers through our quality products, timely delivery and prompt service.

Well trained staff & employees are our most important assets to achieve customer's satisfaction, and give value for money.

We have been working with end customers requiring test reports of any standard testing labs in India or across the Globe.

We are regularly exporting towels to our customers in USA, South Africa and Europe

We have worked with Indian Navy & Military of other countries.

Our Product Range

We manufacture products ranging from 300 to 700 GSM. depending on Customer requirements.

Sizes	In Cms	In Inches
